Definian Inspection

Your first five steps

1

Scan or open secure login

The dedicated start link bypasses the embedded portal and opens Definian's secure Auth0 login.

2

Sign in or create your account

Existing users sign in. New users choose Sign up and use their work email.

3

Open the Definian portal

After verification, sign in and return to the Definian home page.

4

Install Definian Inspection

Use the verified iPhone, iPad, or Android store link below.

5

Use the same verified email

Sign in to the Definian app with the same account you created in the portal.

Safe to print and post: the QR code contains only <https://vercel-portal-exact-traumadogwoodworkings-projects.vercel.app/definian/start>. This dedicated URL bypasses the embedded Signal page and opens secure authentication at [definian-inspection.us.auth0.com](https://vercel-portal-exact-traumadogwoodworkings-projects.vercel.app/definian/start); the QR contains no employee name, email, password, invitation, or permission.

Install Definian Inspection

iPhone: Open the App Store

Android: Open Google Play
