

SECURE ACCOUNT QUICK START

Scan. Create. Start inspecting.

SCAN TO GET STARTED

Definian Inspection

Your first five steps

1

Open Definian registration

Scan the QR or open the dedicated registration link.

2

Enter your email

Use the email address you will use with Definian.

3

Create an account or sign in

Choose the secure Auth0 action that matches your account.

4

Verify and continue

Verify your email when prompted, then continue into Definian Signal.

5

Install Definian Inspection

Use the iPhone, iPad, or Android store link below and sign in with the same verified email.

Safe to print and post: the QR code contains only <https://vercel-portal-exact-traumadogwoodworkings-projects.vercel.app/definian/start>. The page collects the user's email before opening secure authentication at definian-inspection.us.auth0.com; the QR contains no employee name, email, password, invitation, or permission.

Install Definian Inspection

iPhone: Open the App Store

Android: Open Google Play
